

The **BOSS**

By Novus Technologies Inc.

The first Upgradable, Expandable MDU Enclosure. Finally a MDU Enclosure that meets your needs today and allows you to plan for the future.

Steps to follow to expand the BOSS once it is mounted in the field.

Step 1: Remove Top of existing enclosure by removing (2) #10 screws from each corner.

Step 2: Lift Top off enclosure

Step 3: Place Top on expansion unit and secure with (2) #10 screws in each corner.

Step 4: Place expansion kit on existing box securing it with (4) #10 screws.

Step 5: Install desired electronics.

Step 6: Close, self-locking feature will secure doors.

The BOSS with a variety of size expansion kits assures your needs will always be met.

The **BOSS** Expansion Kit

Upgrade your existing BOSS when you need that additional space.

Can Your MDU Enclosure do this?

Standard BOSS mounted on Apartment Complex

Same BOSS expanded with 12" expansion kit to house Telephone equipment.

The BOSS is the MDU enclosure for today and the future.

Technology is changing so rapidly, what you put in the field today may be obsolete tomorrow. Now you don't have to worry about technology shorting the life of your MDU enclosure. The BOSS expansion kit will assure you the space you need for the future without having to plan and pay for that space today.

Standard Features:

- All Aluminum Construction – Will not rust
- Two separate lockable compartments – Can be keyed alike or different
- Simple Upgrade procedures – Saves time and money
- 12", 18" & 24" kits standard – Custom sizes available upon request
- Same great features as The BOSS

The **BOSS** Expansion Kit

Space for tomorrow's needs

Expansion kits come with all necessary hardware and are available in Gray or Tan color.

The **BOSS** Extension Kit with solid aluminum back painted gray.
